

Contract for the AMERICAN DREAM

★★★

Citizens of the United States of America have the right to life, liberty, and the pursuit of happiness, as enumerated in the Declaration of Independence. These rights are God-given, not government-granted, and therefore deserve the protection of lawmakers who are dedicated to Constitutional principles.

As Members seeking election or reelection to the United States Congress:

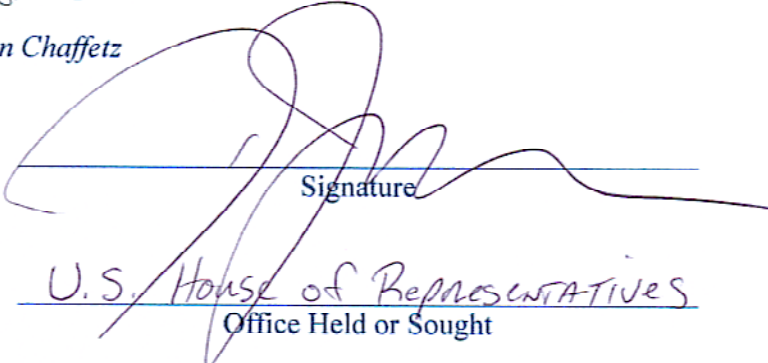

We agree to restore the government to its proper role and protect the transcendent rights of the people. *We stand* for the principles of limited government and restrained federal spending. *We promote* capitalism, innovation and free enterprise. *We support* private sector job creation, economic growth, and the pursuit of the American Dream.

We therefore set forth a *Contract for the American Dream* to be implemented in the 112th Congress.

I Donn James, candidate for U.S. House in
the state of TN do hereby pledge to:

- Uphold the Constitution of the United States
- Implement the Congressional Action Plan (CAP) for the 112th Congress

Congressman Jason Chaffetz
